

Caregiver Electronic Applications Matrix

Electronic Applications Matrix	Electronic Case Management Features and Benefits				
Caregiver's 12 Step Management Program	step 1	step 2	step 3	step 4	step 5
AQ = Admit Quick is a portable MDS assessment	Take to hospital	Calculates RUG's	Costs the Admit	Forecasts Margins	Impoarts into OM
Train Admissions or Social Worker	Assess Real Time	Forecasts LOS	Schedules Tests	Costs Ancillaries	For Managing Stay
OM = Outcome Manager - Train Case Managers	Comprehensive	Problem Driven Models	Costs the care	Costs the Ancillaries	Forecasts Staffing
Assessment - 102 Problems - Library of Models	Assessment	Customized care plans	calculates margins	calculates margins	based on Care Plans
POC = Point of Care Manager - Train Clinical Personnel	Take to the bedside	Perform Assignment	Update Care Plan	Intervention Timed	Staffing Forecast
Wireless Electronic device taken to bedside or patient site	Access Assignment	Document Outcomes	Chart Condition Change	Time Compared to	Based on Acuity
				Standard	
TM = Therapy Manager - Train Therapy Manager	Assessment	Customized Templates	Elctronic Charting	Costs the Programs	Forecasts Staffing
Assessment - 102 problems - Library of Models	Electronic Evals	Programs		calculates	based on TX Plan
SM = Survey Manager - Train Survey Manager	F-tags tied to Jobs	QIS standards listed	Compliance Reports	Plan of Correction	Assignment Sheets
Proactive Management of the Survey Regulations	Accountability	Assigned to staff	Daily, weekly, mon.	Proactive Timely	Responsibility
CM = Cost Manager - Train cost Manager	Costing by episode	Staffing by acuity	Ancillaries Controls	Overhead absorbed	Hidden Costs Valued
Standard Costing activity based accounting	Direct and Indirects	Direct labor costed	Actual Costs	Savings forecast	Turnover, absenteeism
					Falls, Theft, Insurance

Caregiver Electronic Applications Matrix

Electronic Applications Matrix	Electronic Case Management Features and Benefits				
Caregiver's 12 Step Management Program	step 6	step 7	step 8	step 9	step 10
AQ = Admit Quick is a portable MDS assessment	Uses 102 troggers	Uses Diagnosis	Organizes Day 1	Informs familiiy and physician	Sets up
Train Admissions or Social Worker	Over 3,000 models	16,000 in library	For nursing	of care & dsicharge Plan	Demographics
OM = Outcome Manager - Train Case Managers	Sets up Charting	Electronic Notes	Point of Care	Time Tracking	Reports
Assessment - 102 Problems - Library of Models	P.I.E. format	Using Scales	Assigns work	Measures performance	Outcomes
POC = Point of Care Manager - Train Clinical Personnel	Labor Costs Tracked	Medicare Services	Medicaid Services	Documentation of Outcomes	Reports for Survey
Wireless Electronic device taken to bedside or patient site	Variances Analyzed	Justified & Billed	Justified & Billed	Reports for Quality Control	Compliance Checks
TM = Therapy Manager - Train Therapy Manager	Electronic Charting	Electronic Notes	Point of Care	Time Tracking	Reports
Assessment - 102 problems - Library of Models		Using Scales	Assigns work	Measures performance	Outcomes
SM = Survey Manager - Train Survey Manager	Documenation	Follow-up Reports	Ties to OM	Deficiency Free Survey	QIS
Proactive Management of the Survey Regulations	Compliance Checks	Outcomes	Quality Control	Zero Defects	5 stars
CM = Cost Manager - Train cost Manager	Staff Incentives	Empty Bed Cost	Measures	Mearsures Productivity	Qualifies Staff
Standard Costing activity based accounting	Share in Savings	Marketing and	Efficiency		for bonuses
		Census Strategies			

Caregiver Electronic Applications Matrix

Electronic Applications Matrix	Electronic Case Management Features and Benefits	
Caregiver's 12 Step Management Program	step 11	step 12
AQ = Admit Quick is a portable MDS assessment	Sets up	Sets up
Train Admissions or Social Worker	Social Service	Dietary Plan
OM = Outcome Manager - Train Case Managers	Manages Medicare	Manages Medicaid
Assessment - 102 Problems - Library of Models	Length of stay	Case Mix
POC = Point of Care Manager - Train Clinical Personnel	Quality Improvement	Utilization Review
Wireless Electronic device taken to bedside or patient site	Plan of Correction	Part A Utilization
TM = Therapy Manager - Train Therapy Manager	Manages Medicare	Manages Medicare
Assessment - 102 problems - Library of Models	Part A utilization	Part B utilization
SM = Survey Manager - Train Survey Manager	Manages Quality, Outcome	Proactive quality control
Proactive Management of the Survey Regulations	and Income - compliance	CQI procedures
	with F-tag & QIS every day	
CM = Cost Manager - Train cost Manager	Calculates Bonuses	Saves upwards to
Standard Costing activity based accounting	by team or department	\$250,000 per year
		per 100 beds
